

W-CAN

Wollongong Climate Action Network

put climate change on the agenda!

meet the candidates

6.30pm Wednesday 14 March 2007

The NSW state election will take place on the 24th March.

Before you vote, hear what the candidates for our area think and propose in regard to issues surrounding climate change:

- Coal fired power stations • Renewable energy • Regional planning
- Carbon trading • Energy efficiency... to name a few.

You will also have the opportunity to ask questions of the candidates.

Please bring your friends along.

Let the candidates know these issues are important to voters!

A short keynote address will be given by Dr Mark Diesendorf
Institute of Environmental Studies, UNSW
author of *Towards New South Wales' Clean Energy Future*
co-author of *A Clean Energy Future for Australia*

Wednesday 14 March 6.30pm
